

Sony Camcorder

Several camcorders from Sony (e.g. Sony FDR-AX700, Sony HDR-CX900) are available. The camcorders can be used for mobile video analysis. Resolutions up to 4k (3840x2160 pixels with 24/30 frames per second) and Full-HD (1920x1080 pixels with 100/120 frames per second) are possible.
