What is the Munich Muscle Meeting?

The Munich Muscle Meeting is a consortium of Munich muscle research groups. Our aim is to bring together different muscle research groups to organise regular meetings and discuss current topics in muscle science. Furthermore, we want to initialise collaborative projects.

Program

Welcome and refreshments
Moderation: Dr. Peter Meinke / Prof. Dr. Benedikt Schoser

16.00 - 16.05: Schoser, Benedikt (Friedrich-Baur-Institut, LMU) Welcome and refreshments

Scientific talks

16.05 - 16.35: Franchi, Martino (Department of Orthopaedics, University of Zurich): "Skeletal muscle adaptations to distinct contraction types: from whole muscle morphology to molecules"

16.35 - 17.20: Kröger, Stephan (Biomedical Center, LMU): "Muscles have feelings too: proprioception in health and disease"

16.50 - 17.20: Drey, Michael (Geriatric Medicine, LMU): "Neurogenic sarcopenia"

17.00 - 17.50: Trefz, Johannes (Exercise Biology, TUM): "Effect of hypoxia on the interactome of the Hippo effector Yap in muscle"

17.20 - 17.50: Schuster, Robert (Department of Biomechanics in Sports, TUM): "Analysis of neuromuscular activation patterns during drop jumps from varying heights"

17.50 - 18.00: Henning Wackerhage (Exercise Biology, TUM) "Outreach – One Munich Muscle Meeting per year to present our work for a broader audience, such as journalists, health insurance agencies, sports associations…?"

Get together
After 18.00: Optional continued discussions in a Biergarten (e.g. at the "Mariandl")

In general
Lectures (English) should allow sufficient time for discussions (e.g. 10 min talk plus 5 min discussion)
