### Modular Structure: Health Science – Prevention and Health Promotion, M.Sc. (WS 2023/24)

**1st semester**
- Nutrition – Health Science Research (8)
- Health Economics – Health Science Research (8)
- Psychology – Health Science Research (8)
- Physical Activity – Health Science Research (8)

**Health Science Research (16) – choose two**

**Mandatory Modules (25)**
- Health and Society (5)
- Study Design; Ethics – Research Methods (5)
- Scientific Data Processing (5)

**2nd semester**
- Nutrition – Health Science Research II (5)
- Health Economics – Health Science Research II (5)
- Psychology – Health Science Research II (5)
- Physical Activity – Health Science Research II (5)

**Health Science Research II (10) – choose two**

**Applied Research (24) – choose two**
- Behavioral Science, Behavior Change and Health (12)
- Economic Evaluations of Health Care Programmes (12)
- Cardiovascular/Metabolic Disorders (12)
- Mental Health and Well-Being (12)
- Neurological Health (12)
- Diversity, Inequalities & Health (12)
- Cancer (12)
- Evaluation Methods in Public Health and Health Care (12)
- Cancer (12)
- Behavioral Science, Behavior Change and Health (12)
- Economic Evaluations of Health Care Programmes (12)
- Cardiovascular/Metabolic Disorders (12)
- Mental Health and Well-Being (12)
- Neurological Health (12)
- Diversity, Inequalities & Health (12)

**3rd semester**
- Curricular Complementary Subjects (9)
- Extracurricular Complementary Subjects (6)

In the area of "curricular complementary subjects", it is possible to specialize in various aspects of health science, e.g. economics or sociology, which enables preparation for different professional fields. The range of modules varies depending on current developments and resources.

In the area of "extracurricular complementary subjects", students can choose from interdisciplinary modules. This refers, for example, to key qualifications. The offerings vary each semester.

**Note on the elective areas:**
The offer in the elective areas changes continuously. Therefore, please note that the modules shown can only be examples and a regular offer of certain modules is not guaranteed (an overview with currently offered modules is linked on the study program website). Places for modules are allocated by lottery: there is no guarantee of obtaining places on any particular module. Further information on this can be found at [https://www.sg.tum.de/en.sg/study-programs/students/information-about-courses/](https://www.sg.tum.de/en.sg/study-programs/students/information-about-courses/).

**4rd semester**
- Master’s Thesis (30)
