Master Thesis

• General regulations applying to the Master thesis can be found in the general academic and examination regulations (APSO) and the departmental study and examination regulations (FPSO).
• You have to register for your thesis after you have identified your topic and had it approved by your principal advisor. You can get registration forms at the office for exam management and organisation.
• The permissible amount of time that may elapse between registering for and submitting the thesis is specified in the FPSO of your degree program and comprises 12 weeks.
• For the preparation of the Master thesis, 30 credits will be awarded. Calculated in hours, this is equivalent to a workload of approximately 900 hours for the thesis.
• Once your thesis is finished, you have to submit it within the corresponding deadline.
• The APSO stipulate that, as a rule, the thesis is to be assessed within two months from the date of submission (§ 18 (11) APSO).
• For the period in which you are working on your thesis at TUM, from registration to submission, (+ where applicable, any supplementary requirements in conjunction with your thesis, such as a final colloquium or oral exam) you must remain enrolled in your degree program (cp. § 6 (3), APSO).
