

# 13<sup>th</sup> Munich Muscle Meeting (MMM)

Online via Zoom

Date: 29<sup>th</sup> April 2021

Time: 16:00 – 18:00 h

Dear Munich Muscle Researchers & guests,

Because of the COVID-19 pandemic, the 13<sup>th</sup> Munich Muscle Meeting (MMM) must unfortunately again be an online meeting. This is disappointing as we cannot meet in person and there will be no socializing after the presentations. On the other hand, it offers us the opportunity to invite distinguished muscle researchers. We are therefore very pleased that with **Carmen Birchmeier (MDC, Berlin)** and **Markus Rüegg (Biocenter, Basel)** 2 highly cited and internationally renowned scientist agreed to share their latest results on muscle stem cells and muscle loss during sarcopenia, respectively.

## How to attend the Zoom meeting?

### Browser registration:

Please use the following ZOOM-Link to attend online the 13<sup>th</sup> Munich Muscle meeting:

[https://lmu-](https://lmu-munich.zoom.us/j/97565408341?pwd=T2NnMWk0cHU5R)

[munich.zoom.us/j/97565408341?pwd=T2NnMWk0cHU5R](https://lmu-munich.zoom.us/j/97565408341?pwd=T2NnMWk0cHU5R)

[EpNbUhKUE94SEFRdz09](https://lmu-munich.zoom.us/j/97565408341?pwd=T2NnMWk0cHU5R)

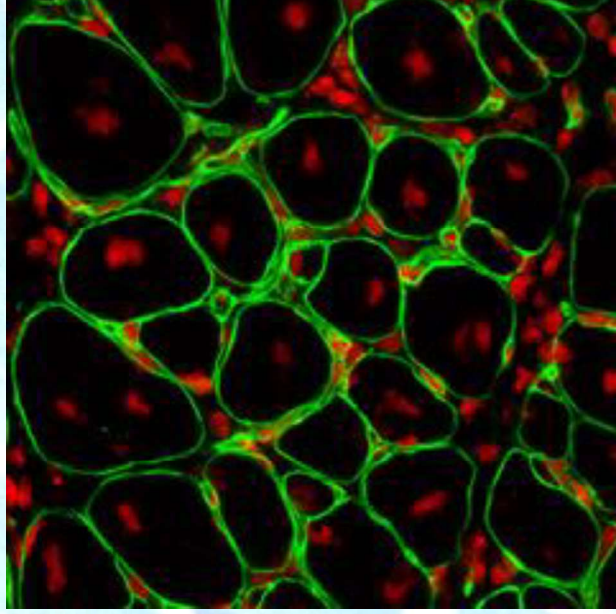

Meeting-ID: 975 6540 8341

Keenncode: 931631

## Meeting guidelines

During the talks, please switch off your microphone and camera. After each talk, we have 5-10 minutes for questions and discussion.

You can either ask a question after the presentation by typing "Q" into the chat or submit a question via the chat function during the talk.

## What is the Munich Muscle Meeting?

The Munich Muscle Meeting is organised by Munich-based muscle research groups. The aim is to present muscle research and to initiate collaborative projects.

### Programme

Moderation: Stephan Kröger

16:00 – 16:05: **Stephan Kröger**, (Biomedical Center, LMU) *Welcome*

#### Scientific talks

16:05 – 16:45: **Carmen Birchmeier** (Max Delbrueck Center, Berlin):

*"An oscillatory network regulating self-renewal of muscle stem cells"*

16:45 – 17:25: **Markus Rüegg** (Biocenter Basel):

*"Mechanistic insights into the loss of muscle mass and function at high age"*

17:25 – 17:40:

**Shao-Yen Kao** (Physiological

Chemistry, BMC, LMU): *"U2-associated Scaff/DmCHERP is necessary for flight muscle development in Drosophila"*

17:40 – 17:55:

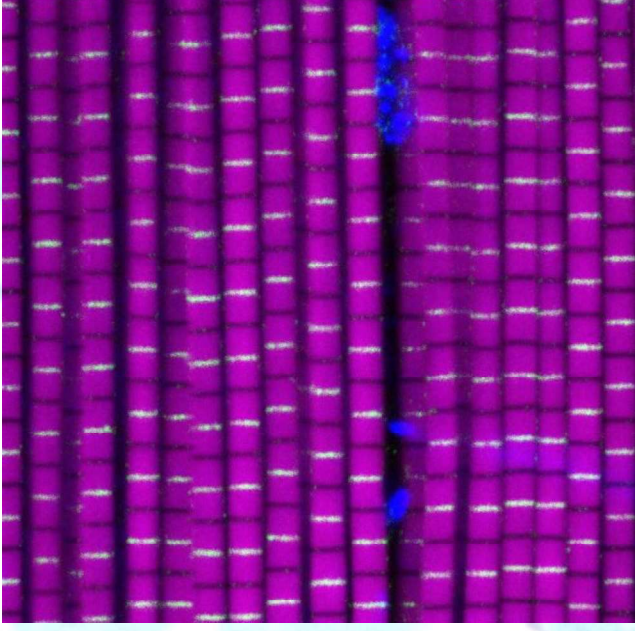

**Fakhraddin Yaghoob Nezhad**

(Exercise Biology, TUM): *"Skeletal muscle phenotyping of Hippo gene-mutated mice"*

17:55 – 18:00:

**Henning Wackerhage**

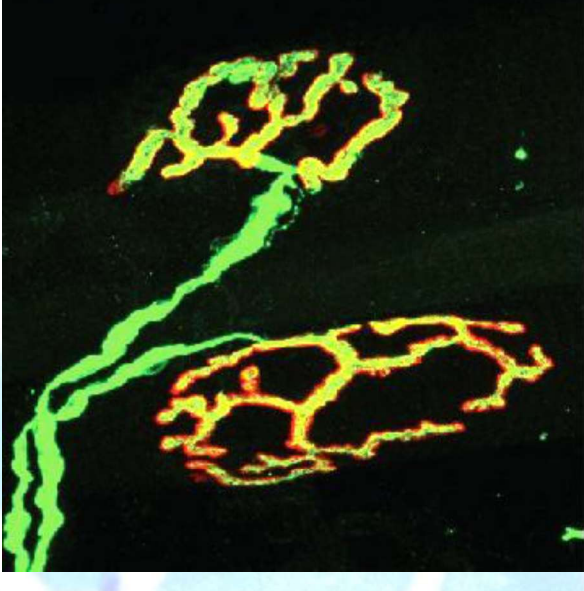

(Exercise Biology, TUM): *Closing remarks*
