

Should we treat ageing?

Animal studies suggest that ageing can be treated like a disease. But what about human longevity trials? Should future physicians treat ageing, a natural process? Is it the ultimate disease prevention? Is it ethical? This symposium aims to start a debate on this topic. Keynote speaker is Prof. Dr. Vijay Yadav, Columbia University, New York, the senior author of a Science paper in 2023 that identified taurine as a driver of ageing: <https://www.science.org/doi/10.1126/science.abn9257>.

Time & speaker	Title
16.00-16.20 h Henning Wackerhage	Should we treat ageing?
17.20-17.50 h Karima Djabali	Progeria: how to treat accelerated ageing?
17.50-18.40 h Vijay Yadav	Keynote: Taurine deficiency as a driver of ageing
18.40-19.00 h	Discussion

Date, time & venue: 5.3.2023, 16.30-18.30 h, Hörsaal Deutsches Herzzentrum

Travel: U1/7 Mailingstraße, go to Lazarettstraße 36

E-mail: henning.wackerhage@tum.de

Fortbildungspunkte: Die Bayerische Landesärztekammer hat 2 Punkte genehmigt. Alle Teilnehmerinnen und Teilnehmer müssen einen EFN-Aufkleber mitbringen und auf der Teilnehmerliste unterschreiben.
