

Transparency & Authorship Agreement

for a Bachelor Thesis at the Professorship of Public Health and Prevention

With this agreement the supervisor agrees to supervise the student in his/her/their Bachelor Thesis at the TUM Professorship of Public Health and Prevention:

Supervisor:

Student:

Topic:

Sharing the final work

The student is aware that after submission and grading, his/her/their Bachelor Thesis may be shared by Professorship employees with other students or project partners to support scientific knowledge transfer.

Publication

Should a decision be made to attempt publication of the Bachelor Thesis results, ICMJE authorship guidelines will be followed. If a student is not interested or engaged in the process of advancing the work for a journal publication after it has been submitted as a Bachelor Thesis to TUM, the supervisor can decide to pursue publication without further student engagement. In this case, the student can decide if he/she wants to be mentioned as a coauthor (as long as the ICMJE criteria are fulfilled), in the acknowledgement section, or not at all.
